Write the quantity desired (minimum of 5) to the right of the button size, and return this form with your order. If you want a gold, brass or silver plated button, write G, B or S after the order quantity.

Many French regimental buttons were made of brass (ie yellow). This can be economically simulated by brass plating the pewter button. The minimum order for brass plating is 50 buttons.

Reproduction buttons are made from an impression taken of the original button. **New** buttons were created from photographs or descriptions of a button and may not be correct in every detail, or they may be made from a button whose provenance is unknown.

Note that several of these buttons, such as the 2, 5, 7, and 9, were also used on Massachusetts Continental Army uniforms of 1778 and are known as "Ordnance" buttons.
