100% Mohair Buttonhole Twist - each skein is hand dyed and should be waxed (beeswax) and twisted/rolled tighter for best results. Mohair is a silk-like yarn made from the hair of the Angora goat and was often used for buttonholes on 18th C. garments. I was able to find matches to most, but not all, of the Kochan & Phillips cloth colors. Each 27 yard skein is \$18.
